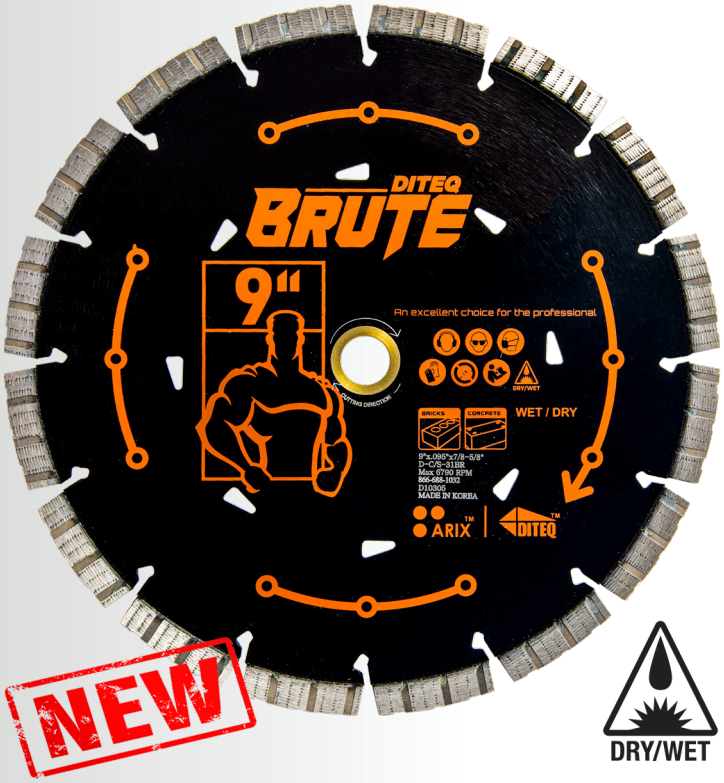
# DITEQ BRUTE Cordless Cut-Off Saw Blades

## 9″ C/S-31 BRUTE Arix Blade

P/N: D10305

Next-generation BRUTE 9″ Brute Arix blade has been designed specifically for electric and battery-powered cut off saws. This multi-purpose blade was designed with Arix technology to allow the cutting of both hard and abrasive materials. The 9″ Brute blade can cut heavily reinforced concrete, extremely hard brick pavers as well as granites and other natural stone



### FEATURES

- Arix G-3 Technology For longer life and faster cutting
- Soft bond for cutting harder materials
- Castellated segments for faster cutting and smoother finish
- Heavily reinforced concrete cutting
- Granite & natural stone cutting
- Cinder block & paver cutting
- Laser welded segments for dry cutting
- Wet use for dust suppression
- Ventilated core for improved cooling when dry cutting
- Fits most brands of 18 Volts - 60 Volts Cordless Saws
